

RANDALL DESOUZA ORDOVICH CLARKSON, MD

6131 N 16th St, Apt. J104 | Phoenix, AZ 85016 | (480)309-4867 | Dr.O.Clarkson@gmail.com

EXECUTIVE SUMMARY

- Medical doctor and Professor of Biomedical Sciences at Grand Canyon University, specializing in instruction for pre-med and nursing undergraduates. Teaching focus includes neuroscience, anatomy & physiology, pathophysiology, and behavioral health.
 - Research focus includes the following ongoing projects:
 1. **The Parkinson's Project:** Investigating potential prophylactic compounds (e.g., norpsilocin, metformin) for the treatment and prevention of Parkinson's disease using SH-SY5Y neuroblastoma cell models.
 2. **The Loyalty Project:** A social psychology initiative exploring the roots and expressions of loyalty and pro-social behavior through an interdisciplinary lens, drawing from evolutionary biology, sociology/psychology, and theology.
 3. **The Prosocial Animal Lab (PAL):** Investigating the neurobiological and behavioral mechanisms underlying empathy and helping behavior in rodent models, with implications for understanding prosociality in humans.
-

TERTIARY EDUCATION

ROSS UNIVERSITY SCHOOL OF MEDICINE (May 2011 to June 2015)

- Location of Pre-clinical semesters: Portsmouth, Dominica
- Location of Clinical Clerkships: NJ, NY, MD, London, England
- Degree & Graduation Date: Medical Degree (M.D.), July 30, 2016

SECONDARY EDUCATION

ARIZONA STATE UNIVERSITY (August 2004 to May 2009)

- Location: Tempe, AZ
 - Degree Received: Bachelors in Conservation Biology
 - Graduated with Magna Cum Laude honors
-

PROFESSIONAL POSITIONS

PROFESSOR OF BIOMEDICAL SCIENCES at GRAND CANYON UNIVERSITY

Location: 3300 W Camelback Rd, Phoenix, AZ 85017

Full-time Faculty Position from January 2023 – Present

Part-time Adjunct Position from September 2021 – December 2022

- Full-time faculty member in the College of Natural Sciences (CNS), teaching pre-nursing and pre-med undergraduate students.
- Instructional expertise spans neurobiology, pathophysiology, microbiology, anatomy & physiology, and vertebrate zoology. Courses taught include:
 - Neurobiology (BIO-343), Microbiology Lecture & Lab (BIO-205/BIO-215), Pathophysiology (BIO-322/BIO-483), Anatomy & Physiology Lecture & Lab (BIO-201/210 and BIO-202/211), Vertebrate Zoology Lab (BIO-415L), Medical Physiology Lab (BIO-360L), and General Biology (BIO-181)
- Active research involvement includes:
 1. **The Parkinson's Project:** Investigating neuroprotective agents in SH-SY5Y cells.
 2. **The Loyalty Project:** Exploring the biological and psychological underpinnings of loyalty and pro-social behavior.
 3. **The Prosocial Animal Lab (PAL):** Studying empathy and helping behavior in rodent models.

ADJUNCT PROFESSOR OF MICROBIOLOGY at ARIZONA COLLEGE OF NURSING

Location: 1620 W Fountainhead Pkwy Suite 110, Tempe, AZ 85282

Part-time Position from August 2022 – April 2023

- Taught Microbiology (BIO-205) lecture and lab to pre-nursing students, covering core topics such as microbial physiology, pathogenic mechanisms, immunology, and infection control.
- Designed and delivered didactic lectures and laboratory instruction using interactive and clinically relevant teaching methods.
- Utilized Blackboard learning management system to post course materials, manage assignments, monitor student performance, and maintain clear communication with students.

CO-FOUNDER & CHIEF MARKETING OFFICER at ABSINTHE MINDED™

Location: Tempe, AZ

Full-time Position from August 2017 – October 2025

- Co-founder of Absinthe Minded, Arizona's first high-quality producer of absinthe
- Coordinating and implementing brand and product development
- Assuring legal compliance in accordance to Federal Alcohol and Tobacco Tax and Trade Bureau (TTB) regulations
- Establishing partnerships with local businesses in the production and manufacturing of high-quality distilled products
- Assuring the consistency of marketing materials in accordance with the mission statement of Absinthe Minded™
- Implementation of sales strategy to deliver product to a highly competitive market
- Supervisor: Kanwar Singh, CEO

ADJUNCT RESEARCH ASSOCIATE at MARICOPA INTEGRATED HEALTH SYSTEM

Location: Mesa, AZ

Part-time from August 2017 - December 2017

- Collecting and assessing data from clinical records and other recorded information
- Conducting literary research in respective disciplines of medicine
- Assisting in the authoring, peer-review, and publishing process

ASSISTANT MEDICAL DIRECTOR at ADAM & EVE MEDICAL

Location: Scottsdale, AZ

Full-time Position from January 2017 – August 2017

- Ensure compliance with rules and regulations set forth by the Arizona Radiation Regulatory Agency (ARRA)
- Assisting with patient intake, evaluations, examinations, & scheduling
- Maintaining patient database and patient information via Electronic Medical Record software (Orchid)
- Ensure adherence to departmental policies and procedures
- Supervisor: Barbara Slusher, Clinic Manager

MARKETING ASSISTANT at ADAM & EVE MEDICAL

Location: Scottsdale, AZ

Full-time Position from November 2015 – January 2017

- Assist in developing marketing content for social media and print campaigns
- Administrator for social media accounts

ADJUNCT CLINICAL EDUCATOR at ROSS UNIVERSITY

Location: Multiple Clinical Sites

Part-time from September 2013 to October 2015

- Leading bi-weekly educational seminars for medical students as required in 3rd and 4th years of medical school
- Developing lectures for pathology and case-presentations on specific examples of disease treated in a clinical setting
- Lectures focused on disease etiology, workup diagnosis, standard of care, and different pharmacological approaches
- Areas of study: pathology, neurology, cardiology, microbiology, and psychiatry

SCIENCE & ENGLISH TEACHER at WYZANT

Location: Brooklyn, NY

March 2013 to October 2015

- Independently contracted teacher for AP High school and College-level students
- Science tutoring specializing in Biology, Ecology, Human Anatomy/Physiology, & Pharmacology
- English and Literature studies with focus on grammar, reading comprehension, creative and persuasive writing
- Experience teaching for SAT I/II, ACT, & NYC Regents Examinations

PRINCESS MARGARET HOSPITAL, EMERGENCY DEPARTMENT

Location: Roseau, Dominica

September 2012 to November 2012

- Volunteer medical practitioner in Emergency Room
- Perform physical health examinations on patients in triage
- Contribute written reports of exam findings in patient's medical records
- Perform minor medical procedures under direct supervision of emergency room physician & nursing staff, including but not limited to obtaining IV access, performing routine bloodwork, wound care and suturing for minor skin lacerations

METRO CARE BEHAVIORAL HEALTH SERVICES

Location: Scottsdale, Arizona

April 2006 to October 2007

- Respite subcontractor for mute, 18-year-old patient with Autistic Spectrum Disorder
- Development of daily lesson-plans in accordance with special education curriculum
- Behavior management and redirection
- Ensure the safety and well-being of the patient
- Maintain the usual routine of the patient
- Following medication support plans set forth by the patient's medical team

PROFESSIONAL CERTIFICATIONS

DOCTOR OF MEDICINE

- Medical Degree Obtained from Ross University School of Medicine, July 2016
- ECFMG Certification issued October 16, 2016

TECHNICAL SKILLS

- Expert proficiency at Electronic Medical Record software including Cerner, Epic, and Allscripts
- Expert proficiency at Microsoft Office (Excel, Word, Powerpoint), Adobe Illustrator CC, InDesign CC, Photoshop CS6
- Expert proficiency at PPT Presentations for academic and technical subjects
- Accounting via Quick Books & Customer Relationship Management (CRM) via Sales Force & Constant Contact
- Working proficiency in research and peer-review publishing
- Over 5 years of experience teaching college level STEM subjects (Biology, Anatomy & Physiology, Psychology, Pharmacology)

LANGUAGES

- Portuguese (advanced verbal fluency, moderate reading and writing)
 - French (moderate verbal fluency, moderate reading and writing)
 - Spanish (moderate verbal fluency, minimal reading and writing)
-

PROFESSIONAL SOCIETIES

- American Counseling Association, since 2022
 - American College of Physicians, since 2013
 - American Psychiatric Association, since 2016
 - Explorer's Club, NYC Chapter, since 2015
-

HONORS & AWARDS

- Arizona State University Dean's List between Spring 2005 to Fall 2008
 - Graduated ASU with Magna Cum Laude Honors
 - Phoenix New Times "Best of Phoenix 2020": www.phoenixnewtimes.com/best-of/2020/food-and-drink/best-green-fairy-11497071
-

LEADERSHIP (RESEARCH & CLUB ACTIVITY)

PARKINSON'S PROJECT

Location: Grand Canyon University

December 2022 to Present

Primary Investigators: Dr. O. Clarkson, MD & Dr. Maurice Jabbour, PhD

- This ongoing research project investigates the prophylactic potential of various compounds in mitigating the progression of Parkinson's disease.
- Using in vitro models with SH-SY5Y neuroblastoma cells, the study evaluates neuroprotective efficacy through biochemical and imaging-based assays.
- Techniques employed include cell culturing, MTT viability assays, Western blot analysis, and alpha-synuclein overexpression via plasmid transfection.
- Findings aim to inform future in vivo studies and contribute to the development of early-stage interventions for neurodegenerative diseases.

LOYALTY PROJECT

Location: Grand Canyon University

September 2022 to Present

Primary Investigators: Dr. O. Clarkson, MD & Dr. Magen Branham, PhD

- The Loyalty Project's ongoing investigations seek to better determine the biopsychosocial underpinnings to interpersonal and intrapersonal cohesiveness. Findings will help to understand how factors such as evolutionary biology, psychology/sociology, economics, philosophy, and theology impact loyalty and pro-social behaviors.
- Research methods include systematic review analysis, survey and data analysis, mixed method quantitative and qualitative analysis.

PROSOCIAL ANIMAL LAB (PAL)

Location: Grand Canyon University

January 2025 to Present

Primary Investigators: Dr. Magen Branham, PhD, Dr. O. Clarkson, MD, & Dr. Maurice Jabbour, PhD

- Co-founded and co-direct the Prosocial Animal Lab, an interdisciplinary behavioral neuroscience research group examining the biological foundations of empathy, altruism, and helping behavior in rodents.
- In collaboration with Dr. Peggy Mason (University of Chicago), the lab employs the escape paradigm model to investigate cost-based prosocial decision-making, using a modified "heated bridge" apparatus to quantify motivational thresholds for helping under graded aversive conditions. The program integrates behavioral scoring, affective state assessment, and cross-disciplinary perspectives from psychology, biology, and ethics to advance understanding of prosocial motivation and affective empathy in mammals.

HENRY VANDYKE CARTER CLUB (ANATOMY ART CLUB)

Location: Grand Canyon University

September 2024 to Present

Faculty Advisor & Founder

- Club founded in homage to Dr. Henry Vandyke Carter, the original illustrator of the medical textbook Gray's Anatomy
- Organize bi-weekly anatomy art sessions in the cadaver lab at GCU for students interested in anatomy & artistic expression

SAILOR'S & MOUNTAINEER'S CLUB

Location: Portsmouth, Dominica

September 2011 to May 2012

President and Leader of Expeditions

- Organize bi-weekly hikes and sailing expeditions to various volcanic mountains on the island of Dominica
- Expeditions: summited Morne Diablotin, Morne Trois Pitons, Moune Aux Diables, Boli Falls, and lead 3 expeditions to the Boiling Lake and Valley of Desolation

COURSE & CURRICULUM DEVELOPMENT

NEUROBIOLOGY (BIO-343)

Location: Grand Canyon University, Phoenix, AZ

Course Developer and Course Lead from Fall 2023 - Present

- Co-Subject Matter Expert (SME) in the development of neurobiology curriculum during Fall of 2023
- Coordination and integration of content from Oxford's Neuroscience, 7th Edition by Perves et al.
- Lecture development and exam materials produced to meet learning objectives set forth by GCU's Pre-Dental Bachelors program

VERTEBRATE ZOOLOGY LAB (BIO-415L)

Location: Grand Canyon University, Phoenix, AZ

Course Developer and Course Lead From Fall 2021 - Present

- Development of vertebrate zoology course content for the Fall of 2021
- Coordination and integration of content based off The Dissection of Vertebrates - 3rd Edition 3 by Gerardo De Iuliis, PhD and Dino Pulerà, MScBMC, CMI

COURSE LEAD POSITIONS

- Vertebrate Zoology Lab (BIO-415L); 2021 to present.
 - Medical Physiology Lab (BIO-360L); 2022 to present
 - Neurobiology (BIO-343); 2023 to present
-
